**Sonexis Technology, Inc. To Conduct Cloud Collaboration Breakout session at IAUG Global 2011.**

**Monroeville, PA - Wednesday, May 04, 2011** - Sonexis Technology, Inc., a leading provider of enterprise audio and web conferencing platforms, is pleased to announce that they have been selected to conduct a breakout session at IAUG Global 2011 in Las Vegas, NV on May 25<sup>th</sup>, 2011.

The breakout session title "Collaboration Services: Public Cloud vs. Private Cloud" will be presented by Frank Segarra, Sales Vice President-Eastern Region. Mr. Segarra will highlight where best to deploy collaboration services when evaluating cloud-based solutions along with the concerns and benefits of collaboration services in the cloud.

"Due to the shifting nature of cloud computing and the questions about where best to deploy certain applications, Sonexis feels it is very timely to discuss how the cloud affects collaboration," says Mr. Segarra. "The IAUG Global Conference provides Sonexis with a powerful forum to discuss collaboration solutions and the many options when it comes to cloud deployment best practices."

To learn more about the IAUG Global Conference and the Sonexis breakout session, please visit [www.iaug.org](http://www.iaug.org).
